### Job Description

An excellent opportunity has arisen where you will be working as part of a talented application development team on enterprise level application projects. You will be involved in a dynamic environment, handling project delivery as well as hands-on development and support.

The candidate will ideally have:

- 5+ years hands-on experience in developing Java systems and applications, and
- Have strong understanding of software development cycle
- Experience in building software architecture would be an advantage.

Your Cantonese and English communication skills must be of full professional proficiency as you will be working in both a local and global environment.

In return, the client will offer an attractive base salary with an extensive benefits package. If you match the requirements and you are looking to develop your career further, this may be the opportunity for you.
